

Stakeholder Map — Template

Project / Campaign: _____ Date: _____ Facilitator: _____

A Tangency Foundation worksheet. Score every stakeholder on two axes (1 = low, 5 = high), plot them on the grid, then assign an engagement tactic per quadrant.

- **Impacted by Issue (Impact):** How directly does this issue touch them?
- **Can Impact Issue (Influence):** How much power do they have to accelerate or block change?

Step 1 — Stakeholder Inventory

Stakeholder	Type (individual / org / agency / funder / business)	Relationship to us	Impact (1–5)	Influence (1–5)	Quadrant

Step 2 — The Grid

- **Q1 — High Impact / High Influence:** Co-design strategy with them. They are your campaign core.
- **Q2 — High Impact / Low Influence:** Build capacity so their stories drive the narrative.

- **Q3 — Low Impact / Low Influence:** Keep informed; activate if they become more affected.
- **Q4 — Low Impact / High Influence:** Treat as decision-makers or validators. Prepare tight briefs and asks.

Step 3 — Engagement Assignments

Stakeholder	Quadrant	Outreach approach	Messenger (who from our team)	Deadline	Status

Step 4 — Review

- ☐ Every stakeholder has scores and a quadrant
- ☐ Every Q1 and Q4 stakeholder has a named messenger and deadline
- ☐ Assignments copied into the project tracker
- ☐ Revisit date scheduled (maps go stale — review quarterly): _____
