Facilitation Steps

1. **Prep the quadrant.** Print or project this template so everyone can drop notes into each box.
2. **Brainstorm quietly.** Give folks 5 minutes to jot ideas individually — this prevents the loudest voice from steering the conversation.
3. **Cluster themes.** Group similar ideas, then label the top 2–3 items per quadrant.
4. **Translate into action.** For every threat, note a mitigation plan. For every strength, match an opportunity.
